

SPECIFICATION AMENDMENTS

Replace the paragraph commencing on line 11, page 7 of the specification with the following amended paragraph:

More particularly, the securement means comprises elongated, narrow securement strips 60, 62, 64 and 66. A particularly suitable securement strip material is touch fastener material such as that sold under the trademark Velcro. The securement strips extend top edge to bottom edge relative to the wrapping sheets. That is, each securement strip has a longitudinal axis extending in the same direction as the lines of stitching 40.
